Subject: Save Our GREENSPACE!

Suggested Body: I am emailing today regarding the proposed development of the property formerly known as the Calumet Country Club, a portion of which is in the Village of Hazel Crest.

Your constituents and your neighbors have overwhelmingly opposed the proposed trucking center and its negative impacts: air and water pollution, semi-truck traffic, noise, low-wage jobs, increased flooding, and loss of home equity through decreased property values. The environmental impacts of razing the property, including the historic clubhouse and over 2,000 trees, altering the Cherry Creek waterway and destroying over 120 acres of greenspace will be dire.

Southland residents lose in every way possible, and the only person who will benefit is a millionaire in Scottsdale.

Greenspace is a valuable, limited resource in the Southland, and WE ASK THAT YOU WORK WITH THE VILLAGES OF HOMEWOOD AND EAST HAZEL CREST TO CREATE AN INTERGOVERNMENTAL AGREEMENT THAT WILL PROTECT OUR COMMUNITY BY PRESERVING THIS GREENSPACE!
